### Description

- Classic granulate pipe cleaner
- Removes pluggings of organic origin in drains and pipes
- If used regularly for prophylactic measures, prevents clogging of drains
- Prevents bad smells from drains
- Is also suitable for unfreezing of frozen drains and pipes

### Application fields

- For removal of organic cloggings in drains and pipes

### Instructions for use

Slowly add 1 – 2 closing caps directly into the drain. Rinse with some warm water. Please mind that no residue of **SANIT Pipe Cleaner** remains on the strainer. Let the cleaner react for 30 minutes, afterwards rinse with plenty of fresh water. In case water still doesn't drain quickly enough, repeat the procedure.

### Best before

- not relevant
