

# Product Information

## SANIT Cleaner for Burners, chloric

### Description

Product for effective cleaning of heavily soiled burner equipment parts (like blast connectors, inside body housing, blower wheels, pressure plates, etc.). It can be also used for cleaning and degreasing of blank metallic surfaces. Removes oils, greases, wax. For application just spray the content of the can onto surface/ parts to be cleaned. Before using on varnished surfaces check the persistence of the material against the chemical.

### Application fields

- Burner parts like blast connectors, blower wheels, jet nozzles

### Application

Switch the burner including the boiler off. Use the main switch for this. Spray the cleaner onto soiled parts and let it work for a short time. Wipe the rests off with a cloth. In case of burned-in carbonized deposits use a cleaning brush for additional mechanical cleaning. The required amount of **SANIT Cleaner for Burners** depends upon the grade of contamination and the size of the burner.

**SANIT Cleaner for Burners, chloric** is combustibile. Avoid spaying the product onto conducting parts necessarily.

### Best before

- not relevant
