

## Brake Cleaner

Brake Cleaner is a highly concentrated cleaner with acetone suited for all maintenance and assembly work. Cleans heavily soiled substrates. Degreases and removes resins. Produces bright clean surfaces.

Brake Cleaner is used to

- remove oil, grease, resin, adhesive and clutch/brake debris
- clean engine parts, springs, electric installations, starters, roller bearings and guides
- remove stubborn stains from upholstery and textiles
- works without leaving any residues

### Use:

Spray dirty parts thoroughly and let the fluid run off. Repeat the treatment if necessary. Test plastics, rubber, coloured substrates and textiles in an inconspicuous area for compatibility before use.

### Content of aerosol can:

500 ml
